# ADVICE FROM A 7TH GRADE PARENT

---

*“Use Parent Portal and teacher sites to keep on top of classes/grades/ assignments. You can always email a teacher with questions. Back to school night is helpful as you may get different interpretations from kids than what teacher says...it helps to hear from teacher and have a face to a name.”*

# ADVICE FROM A 7TH GRADE PARENT

---

*“Talk to other parents- especially ones who have been through it before...I had an older child go through it first, so then when my younger one was starting Holicong and some of her friend's parents were experiencing everything for the first time, I had answers to many of their questions since I had been through it before. They were not hard questions, but I think it calmed the parents - which of course is better for the kids who could feed off parents anxiety.”*

# ADVICE FROM A 7TH GRADE PARENT

---

*“Your child will be well served by being up to date on Office 365 and PowerPoint skills. These get used a lot! Advise your child to make the most of the time in 6th grade to learn these skills well. Also! Use a zipper binder with a section for each subject. This is the best way for students to stay organized and not leave things behind.”*

# ADVICE FROM A 7TH GRADE PARENT

---

*“Once school begins keep eyes and ears open for the Daily Announcements. It is read aloud each morning but also posted on the CBSD Holicong homepage. It is a great way to learn how students can get involved in all activities and clubs that Holicong has to offer.”*

# ADVICE FROM A 7TH GRADE PARENT

---

*“Take advantage of all events/orientation nights and days leading up to 7th grade. Going into the school at the "open house" when you pick up your child's schedule definitely will help ease her or him into the transition. We made sure the locker could be opened several times then walked from class to class per the schedule and did the "scavenger" hunt. These all helped my child to feel more familiar with the new school and it was a big help in easing nerves.”*

## ADVICE FROM A 7TH GRADE PARENT

---

*“Learn to utilize the teacher's websites & school websites right away so that it becomes a part of your daily/weekly ritual.”*

## ADVICE FROM A 7TH GRADE PARENT

---

*“Get a large zipper binder with a handle to help your child stay organized. They can keep every subject in one location. This makes it much easier for them to transport along with all their books.”*

## ADVICE FROM A 7TH GRADE PARENT

---

*“Don't stress. There will be challenges and changes but help your child embrace them instead of fear them.”*

## ADVICE FROM A 7TH GRADE PARENT

---

*“Don't be afraid to contact the teachers with any questions comments or just praise. Just because your child is in middle school now they still like to hear from you.”*

## ADVICE FROM A 7TH GRADE PARENT

---

*“Definitely use the mobile Campus Portal. It's easier to read/scan and check your child's grades and assignments than the online parent portal.”*

# ADVICE FROM A 7TH GRADE PARENT

---

*“Be positive about new, fun experience. The kids are so nervous about opening lockers and who to sit with at lunch etc. Just tell them it will be fine and you'll meet new people, see familiar faces, and have great new teachers etc. Go to get the schedules and tour school in summer - open the locker, etc. It helps the kids with anxiety.”*
